

# Number Express™ Activity Guide

## Contents

18 Tall-Stackers™ Pegs, 5 2-Piece Lauri® Crepe Rubber Pegboard Puzzles that Form a 20" Long Train

## Color Sorting

- Sort the pegs by color.
- Sort the engine and train cars by color, placing them with the pegs of matching color.
- Stack the color pegs on the train engine or car of the same color.

## Color Matching

- Place a peg on one of the pegboards, naming the color as you do.
- Ask your child to find other pegs that match yours. As your child places each peg next to yours (or stacked on top of yours), they should name the color.

## Color Recognition

- Using any one of the pegboards, stack five pegs, one of each color.
- Ask your child to name the color of the bottom peg.
- Then ask your child to name other things that are the same color as that peg, or point out objects the same color that you see around the room.
- Continue with the other colors.

## Number Recognition

- For each individual train engine and car, ask your child to fill the holes with pegs.
- Point out that the number of pegs matches the number on the pegboard. For example, the pegboard with the number 3 on it holds three pegs.

## Spatial Awareness

- Remove the numbers from inside the pegboards.
- Lay the pegboards and numbers out in front of your child.
- Ask them to match the numbers to the puzzles they fit.
- Ask your child to fit the pegboards together in the correct order.

## Counting

- Connect the train so you have one long pegboard.
- One by one, place 10 pegs in a row, counting each peg out loud as it is placed.

## Listening & Following Directions

- Call out a certain color and number of pegs to place in the pegboard train. Your child listens and tries to complete the task as you have directed.
- Increase the number of pegs and combinations of colors as the skill level increases.

**Note:** Pegs may be tight during first use. Simply twist the pegs to help when stacking or removing them from pegboard or other pegs.

**Product Care:** Lauri crepe rubber is bright, durable, soft, latex-free and washable. Simply clean the pieces with soap and water.
